

Welcome to ISGC2

On behalf of the International Advisory Board, the Organizing Committee warmly invites you to participate to the 2nd International Symposium on Green Chemistry: Renewable carbon and Eco-efficient processes (ISGC-2) that will be held from May 21st-24th 2013 in La Rochelle, FRANCE.

After the first edition organized in Poitiers in 2003, our aim for this second event is to widen the scope of this symposium and to gather the most eminent scientists involved in the field of green chemistry in order to highlight the most innovative reactions and processes designed for a rational conversion of renewable carbon. Through ten plenary lectures and keynotes from academic and industrial leaders in the field of green chemistry, ISGC2 will provide an environment that facilitates widespread interdisciplinary communication. To this end, ISGC2 should offer to public and private scientists an ideal platform for sharing fundamental knowledge with industrial research and development.

We hope you will enjoy this unique moment to share your vision about green chemistry with other countries and to contribute to the emergence of new and sustainable processes for a greener world.

Tentative schedule

March 2012	1 st circular
October 2012	Deadline for submission of abstracts
June 2012	Open for early bird registration
June 2012	2 nd circular
December 2012	Notification for abstract acceptance
January 2013	Deadline for early bird registration
May 2013	Welcome to ISGC2 Symposium

Topics

- Conversion of lignocellulosic biomass
- Conversion of vegetable oils and derivatives
- Chemical valorization of wastes
- Design of eco-efficient processes
- Environmental impact of chemicals and processes
- Catalytic materials

Chairmen

Joël BARRAULT
François JEROME

Organizing Committee

P. Ayrault	P. Marecot
J. Barbier	K. de Oliveira-Vigier
F. Bataille	S. Petit
C. Batiot-Dupeyrat	A. Piccirilli
E. Fourré	J-M. Tatibouët
P. Jalladeau	S. Valange

La Rochelle

With its maritime character, anchored to the Atlantic coast, near the Islands of Ré and Oléron, La Rochelle is one of the best places to enjoy the ocean within a city with a prestigious heritage, preserved and prized over the years. La Rochelle "the White" with its two Towers guarding the Old Port; but also its churches, its secret roads lined with arcades, its old wooden and aristocratic houses, its stately residences will take you back to a fascinating history.

The conference will be held in La Rochelle at "La Rochelle Congrès"

Confirmed Speakers

P. Anastas (Environmental Protection Agency, USA)
J. Warner (Babcock Institute for Green Chemistry, USA)
F. Schüth (Max Planck Institute, Mülheim, Germany)
W. Leitner (RWTH Aachen, Germany)
B. Weckhuysen (Utrecht University, Netherlands)
C. J. Li (McGill University, Montréal, Canada)
A. Corma (ITQ, Valencia, Spain)
P. Monsan (INSA Toulouse, France)
J. Clark (Green Chemistry Center of Excellence, York, UK)
J. F. Minster (TOTAL, France)
B. Sels (Leuven University, Belgium)
M. Philippe (L'OREAL, France)

Scientific Committee

B. Han (China)	D. Cole Hamilton (UK)
P. Dixneuf (France)	C. Apesteguia (Argentina)
P. Jacobs (Belgium)	V. Rataj (France)
M. Pagliaro (Italy)	R. Poli (France)
S. Ma (China)	D. Murzin (Finland)
S. Caillol (France)	F. Thibault-Starzyck (France)
K. Tomishige (Japan)	G. Centi (Italy)
F. Di Renzo (France)	V. Parvulescu (Romania)
S. Kobayashi (Japan)	M. Seffen (Tunisia)
J. Zimmermann (USA)	F. Dumeignil (France)
J. Barbier (Eco-industries)	S. Ruthven (UK)
J. L. Dubois (ARKEMA)	B.M. Reddy (India)
Y. Queneau (France)	N. Essayem (France)
A. Fukuoka (Japan)	J. Kervennal (DCI-SC)
I. Rico-Lattes (France)	P. Jessop (Canada)
B. Estrine (ARD)	C. Esteves (Spain)
M. Philippe (L'OREAL)	F. Mondragon (Colombia)
A. Mortreux (France)	D. Neibecker (France)
J. Metzger (Germany)	E. Srasra (Tunisia)
P. Cognet (France)	P. Maestro (SOLVAY-RHODIA)
W. Kunz (Germany)	P. Krausz (France)

Registration Fee

Academic and industrial : 500 €
Students : 300 €
